WEDDING

BULLOCK-WALLIS

The Anglican church was beautifully decorated today (Wednesday) for the marriage of Edna Irene, youngest daughter of Mr. and Mrs. J. T. Wallis, and John Thornton (Wallis) Bullock, eldest son of Mr. and Mrs. Thornton Bullock. The church was filled with relatives and friends of the families. The Rev. E. R. Lockyer performed the ceremony and Mrs. D. Harper presided at the organ.

The bride wore white georgette over white silk, veil and orange blossoms and silver slippers, and carried a bouquet of gladioli and sweet peas. The bridegroom wore a tuxedo.

The bridegroom was supported by Mr. Kenneth Allison, of Ardley. After the ceremony a buffet lunch was served to relatives at the home of the bride.

The happy couple left in the early evening by car for a honeymoon at Banff and Windermere, the bride wearing a travelling dress of rose green, travel coat and hat to match.

They will take up residence at Telford in their return.

It's a pity there isn't a game law to restrict the bull chasers.

LETTER TO THE EDITOR

To the Editor,

The Record:

You have doubtless heard about the proposed removal of the skating and curling rink, although, no, I do not know, but you have. Anyway, here's a little story, and we will call it, "Hush! White Whiskers."

Early in the year, the Trustees of the United Church decided that owing to the condition of the house, it would be right and proper to provide a responsible residence for the Parson. A very commendable resolution, but calling for the expenditure of a considerable sum. Those interested put forth their efforts, and in some small, still it was an uphill job. About this time a fairly good-looking apartment in the person of Warden McLean. He informed the trustees that the Minister of Public Works was very desirous of obtaining the ground occupied by the Church, the skating and curling rink, and that on which the building had a claim. He, on behalf of the Minister was prepared to pay a respectable sum to the church.

He informed the trustees that the Minister of Public Works was very desirous of obtaining the ground occupied by the Church, the skating and curling rink, and that on which the building had a claim. He, on behalf of the Minister was prepared to pay a respectable sum to the church.

Not so good! Still it might be possible to secure the shareholders of the Port Athletic Association, who were the actual owners of the curling and skating rink property, although the corporation of the property had been left to the lessees, the Curling Club, for years.

The list of shareholders was obtained from the secretary of the Athletic Association, and a meeting called for July 28th, 1928. In passing, I might mention that the last meeting of this august body was held on October 28th, 1916.

That shows how active they are. The July 28th meeting was duly held, and the following members of the association were present: Messrs. Jones, Dobson, Blimmon, Fetherstonhaugh, J. Graham, O'Brien, and the secretary, appointed in 1916, Mr. A. M. Cunningham. Mr. Jones held a proxy for Mr. W. L. Wilkin.

There was no written application from the Minister of Public Works for the possession of the property in question, but some of the shareholders had seen Warden McLean's letter. The matter was discussed, and it was moved by Mr. Jones, seconded by Mr. Fetherstonhaugh.

"That in accordance with request of the Public Works Department in a letter to Warden McLean, dated June 28th, 1928, that this Association is agreeable to the moving of the curling and skating rink to a new site PROVIDED that the grounds, buildings, and fences are properly fenced in, and the pipe line extended so that a suitable water supply will be available."

Motion carried unanimously. The show is perfectly in order. But Mr. Editor, there is one thing that I wish you to note at this point. It is that the pipe line be extended so that a suitable water supply will be available."

There seems to be no misunderstanding in the minds of these gentlemen, that the pipe line from the Gird to Dennis avenue will be for fire purposes, and also conveniently placed for obtaining water for the curling and skating rink. I will refer to this later.

The meeting then had the following motion put before them. Moved by Mr. Jones, seconded by Mr. J. Graham.

"That the President, Vice-President and Secretary-Treasurer be a committee to lease a new site, and interview the Town Council AND the Curling Club, AND REPORT AT NEXT MEETING."

The results of the meeting were communicated to the Minister in a letter, and this sentence was a part of the communication, "and pipe line extended so that a suitable water supply be available."

At the meeting of the Association there seemed to be some doubt in the minds of some of the shareholders as to their title to the property, but in view that a survey was registered with the Dominion Government in 1909, the survey being made by Mr. Lougan under date of December 14th, 1909, that on January 17, 1911, in a letter to the signatories of Mr. W. H. White it stated that the

CHEVROLET MOTOR COMPANY PRODUCES NEW TRUCK

The Chevrolet Motor Company of Canada announces the addition to its line of a new utility truck. The new truck, which embodies several improvements, chief of them a "four speeds forward" transmission, four wheel brakes and channel steel bumper, went into production in the various Chevrolet plants recently. It will be on view this week to dealers everywhere throughout the country.

Hon. Frank Oliver suggested that he be willing to accept a fee of \$1000 providing that the land is held for the purpose for which it was originally granted, and that on February 19th, 1911, Mr. and Mrs. White wrote asking the Association whether they wished patent to be issued. I think that their fears are groundless. When the Dominion Government makes a grant on conditions, and these conditions are fulfilled I have no fear of their honor in the matter. Anyway, we have a Member.

Now up to the present the Committee appointed by the Association had not met the Town Council officially. A Special Meeting of the Council was called for Tuesday, August 14th. I will quote from the minutes of the meeting:

WHY ARE "BOOTS"

(Editorial Column of
Alberta Teachers' Association)

Every high school has its quota of
so-called "boots," people who do not
measure up to the standard set for
high school accomplishment. In most
cases one or two names seem to be
active, either the student is not in-
terested in the work that he is doing,
high school offers him, or he lacks
the necessary mental equipment. It
is not often that a pupil is found who
is intellectually slow; many children
who appear to be very capable are
inclined to work of the right attitude
were found or if they were given work
that they had the ability to do.

It is fully for the teacher to tell
an understated or incapable child
that he is a "worthless good-for-
nothing," usually it is not true. On
the other hand it is unwise to allow
administration for school boards to
leave the schools to be delivered up
with uneducated and incapable chil-
dren. And parents who based on such
children "putting an education" very
often have a mistaken idea of the
meaning of the word education.

The trouble at the present time
seems to lie, not so much in the lack
of facilities for training children who
will not or can not do justice to an
adequate instruction, as in the lack of
facilities for advising pupils as to
commitment on Vocational Guidance.

The demand for registered mail and your will ever greater than in previous years in the opinion of the Saskatchewan Registered Mail Drivers' Association in Moose Jaw.

For the twelve months ending August 31, the Dominion Bureau of Statistics reports that absolute harvest value of \$23,610,000 in the United States.

More than 1,000 Saskatchewan old timers were to report at old age pension under the plan approved at the last session of the provincial legislature at the end of September and there are about 1,000 more expected under similar provision.

Capt. T. P. Worthington, A.R.C.M.G., Canadian Expeditionary Force, was the first to operate a vessel on the upper Yukon river during a recent tour of the province.

Books of surplus military equipment, including more than 1,000,000 rounds of .303 calibre ammunition, have been put to disposal by the government during the World War.

More would do well to enjoy the life in the summer of some provinces. Dr. Gerald B. Webb, of Chicago, told physicians attending the New York Association of Medicine.

The Grading of Wheat

The heavy tests which dominated upon Western Canada during the first week of August, had a most disastrous effect upon a large portion of the wheat crop of the province, with a resultant lowering in grade which, in the aggregate, means a loss of many millions of dollars to the farmer-producers of the west. Just how great the loss will probably never be accurately known, but thousands of individual farmers will, more or less correctly, estimate what it means to them. Volume of production remains, the greatest in the history of the country, but grade, and consequently price, are seriously affected.

Under the circumstances it is not strange that an inquiry to reveal the whole system of grading, and some very true statements are being made. The farmer who gives Number Three feels that he is being shorted. Number Two, and the man who gives Number Four, feels that he is being shorted. The result is that everyone wonders, whether in the Post or in the river, are charged with taking advantage of the situation and grading to the profit of the grader, and not to the profit of the farmer.

The work of the master is, of course, that neither Liberal, Conservative, Progressive nor United Farmer Organizations are responsible. It may be that the present system of grading requires revision but even that cannot be determined. Canadian wheat occupies an enviable reputation in the markets of the world, and because of that reputation commands a good price. That reputation is based on the quality of the wheat, and that quality is guaranteed through our system of United Farmers' Grading and grading.

It may well be that in a year like the present, re-orientation in grading would result in a larger proportion of our wheat being placed in higher grades and better prices received by the grower. On the other hand, however, the standards might very easily result in a general lowering of all prices, so that the final result would be much the same.

But assuming that this did not happen this year, the undoubted effect would be to injure the reputation of Canadian wheat and say grain delivered this year would be more than offset in other years because of the poorer reputation for all our wheat that would result. The reputation of Canada's wheat abroad is the biggest asset we have in the British and European markets, and it must be retained that it is longer with greater safety in order to retain credit conditions in any one year would be fatal to this reputation.

It may be, however, it is considered. One fact, which means the reputation of the wheat harvest, is Canada's lower grading, actually in the selling grades, and it is not a matter of opinion. It is a fact that our wheat is made from such wheat. It is a fact that our wheat is made from such wheat. It is a fact that our wheat is made from such wheat.

This, however, is a question that can only be determined through study, research and experimentation. It cannot be decided in a day or two, or settled by legislative enactment. The Dominion Government is fully alive to the importance of this question, and the Government Research Laboratory, working in conjunction and full co-operation with all Western universities, is engaged in the task of studying the actual facts and the full truth in the important work of the three provincial governments, the Wheat Pools, and the United Farmers' Grading and grading.

Pending the results of such searching investigations, it is a mistake and unparliamentary for anyone to seek to influence public opinion out of an information condition resulting from the reputation of the weather which is now, in body of man, can direct or control. Rather should every man and every organization have the best interests of Canada at heart and do what he is in his power to do to the best of his ability and to the best of his knowledge.

How many people you know who are still cold with Angina! And how often you've heard of the prompt relief of cold throat or cold chest by the use of Vicks VapoRub. It is cold, sore, and inflamed; and the aches and pains that go with them. The wonder is that it takes so long to get relief. Vicks VapoRub is the only remedy that gives relief without the use of medicine. Friends have often told you Angina is marvelous; doctors have declared it harmless. But you know it is not, with pains driving. Why not put it to the test?

Travelling School's Promising Trio

New good ones of a notable kind on them is the value these young boys from the backwoods of Ontario will derive from a wonderful week spent in Toronto. These three boys are: James McMillan, aged 14 years, French-Canadian from Ramsey; George Kingston, a little 6-year-old lad from Wren, and John Paul Piquette, French-Canadian of 14 years, French-Canadian from Ramsey. They are about pupils of the Canadian Pacific Railway travelling school and are on their way to attend the school on wheels the week of the 14th. Their school, Mr. McMillan, three boys to a week, a French and the Canadian National Exhibition, at the corner of Front Street, the boys of the various class of the North-West, and the Canadian Pacific Railway.

It is derived by all be as a good boy. George Kingston arrived although he is having English rapidly, and even the smallest of people he has been a city child. He had never been before until he boarded the train that brought him to the city, and the largest body of people he had seen together at one time was 10. He was intensely interested in railways and electricity and his pockets were stuffed with a little of mechanical work. He had yet mastered enough enough to talk on a telephone, and when he saw a parade of men in their light red tunics it was difficult to hold him back. The two older boys were most interested in aeroplanes and the animals they saw in the exhibition.

A report of the High school literary society's meeting has been held at 11:30 last week.

The Women's Institute will hold a fancy dress dance on Friday, November 14. Good music, good prizes.

The Fort Grahams' next set of business last week and the proprietors, Mr. and Mrs. Friedman, are expecting a crop at Vancouver.

Now the Recreational society of Christians have been making your choice. You can read a novel here to you or you may see it at this office.

The decorations are being placed out with the dance room of the Memorial hall. The "willing workers" have the job in hand.

The young folks are having lots of fun skating down at the rink. Five number, skaters of snow and the skating rink really tends to make it a popular playground.

The ladies of St. George's church will hold their annual Thanksgiving service in the Memorial hall on Monday, November 12, from 6 to 8 o'clock. Admission 50c; children under 12, 25c.

The Junior Choir of the First United church will hold a silver tea and sale of home cooking at the home of Mrs. Ford Baker on Saturday afternoon, November 16, from 2 o'clock to 6. The proceeds to go towards church music.

Following the Thanksgiving supper provided by the ladies of St. George's church in the Memorial hall on Monday, November 12, a dance will be held from 8 p.m. to 1 a.m. Proceeds will be towards the church. The ladies are planning to play cards during the interval. Admission to dance: 10c; men, 25c; ladies, 50c. Good music. Midnight refreshments will be served at 12 o'clock.

A week or so ago we saw in a daily newspaper list a prisoner received sentence provided he be sent to Prison Albert for two years instead of to Fort Saskatchewan for one year. It looks comfortable and home-like over there and there are times when we feel a similar between those walls, without the anxiety of trying to find the universal to meet expense, would do us good. Whatever the prisoner's motive, he could not have known about the new electric light standards which has the broad road to freedom (or is it the broad and smooth road to misery—oh, we can't spell it—look-up) or he would not have been so comfortable with his plan. The ladies were turned on last Saturday night and they gave an inspiring effort to the grounds and building. The boys must have felt proud of the improvements to their home. Were we given an advertisement concerning it we would emphasize three points—body by Fisher, standards by Lander, electrical installation by Thoms.

ALBERTA BIRTH LIT. SOCIETY PLANNED

Steps toward the formation of a provincial birthright society which will have as its object the development of better citizenship in the province are being taken in the Edmonton and Calgary birthright societies. It is planned to hold a conference in Edmonton this week, on January 14-15. At the time of the conference, plans for the formation of a provincial birthright society, and representation of various towns and localities, are being discussed. An appeal is being made to all those interested in the aims of such an organization which can fulfill a very important function in building a better province.

The post of January 1st will shorten the present time of about 10 days. It will be a very bad time for the province. It will be a very bad time for the province.

Many visitors from western cities in Canada and the United States are expected at the Banff Winter Carnival this season, said W. A. Brant, president of the winter sports organization at Banff, British Columbia.

Blind, shelling, and other kindred winter sports will be in full swing, he said, and it now appears there will be many competitors from outside points in the various events.

The present season of navigation is characterized as "a phenomenal year" as the general export is concerned, by the chief of the wharves department of the port commission of Montreal, commenting on business outside of Canada. "We shall show record increases that will be outstanding when the next report comes to be made up," he said.

Although the Canada Colonization Association only started to operate in Ontario last February, it has already placed 100 families on 5,571 acres of Ontario farm lands, according to a statement made recently in Toronto by the association.

It was his opinion that British sailors found it easier to start in Ontario than elsewhere.

Some 200 of the thousand head of buffalo in Elk Island Park, near of Winnipeg, have been slaughtered during December in order to keep the size of the herd within the carrying capacity of the park preserve. It is expected that most of the most of the herd will be shipped north in the form of pemican to provide food for Eskimo inhabitants of the Northwest Territories as a result of the growing demand from that source following the trial shipments made last year.

Supplies for the 116 inhabitants of the lonely little island of Tristan da Cunha in the southern Atlantic are not far from St. Helena are being collected by Montreal chapters of the I.O.O.F. and will be delivered in February by the Canadian Pacific liner "Creston of Alaska." This great liner, making a cruise of South America and Africa, is one of the few vessels to call at this isolated point. The visit is one of the unique features of the cruise for the passengers and the visit of the post for the inhabitants of the island.

A Successful Immigrant

Man From Sweden Drove Well With Farming Operations In Saskatchewan

Another instance of a successful immigrant launching out on an ad-

bilious scale of farming is that of Andrew Anderson of Alaska. Back who came from Sweden in 1910; began farming a homestead of 160 acres and now farms 4,500 acres which, in 1928, yielded 54,000 bushels of Marquis wheat. But the farm is something of a show place as well containing, among other things, an arboretum and an artificial lake.

The Dominion Post Board has issued a progress report concerning the activities of the Board since the changes that the full utilization of its funds is undergoing. The report is the first of the Board's interim reports in 1966. The report summarizes progress of five years ago and states that the Board's main problem was one of supply, with limited funds. At the time, there is now an abundance of both national and foreign funds for the Board to use. The Board's main problem was one of supply, with limited funds. INTENSE COLD IN EUROPE CAUSES GREAT SUFFERING

LONDON, Eng. The coldest winter in recorded history of cold weather has begun a great lot of life in Europe. In last week, and throughout the almost every country between North Sea and the English Channel report of most critical conditions.

Berlin, Jan. 20.—Directly and indirectly the cold weather have gone on since 1909 since Monday and Tuesday appeared to be weakening of the weather of the last severe winter in memory of living man.

At Landau, the French military authority with the army of occupation in Germany was frozen to death. Prisoners were frozen to death. Many other cities suffered from the cold and as many as 10,000 people died.

Advices received by Central London from Vienna said 10,000 persons had been killed at one point in Budapest in the civil war, and that the Hungarian government had reported that several deaths due to cold were reported from Budapest, including a night watchman and his wife who were frozen. The Hungarian capital was paralyzed by snow, which halted virtually all traffic, the Times news correspondent reported.

The statistics include France, 2,500 deaths due to influenza.

England and Wales 2,100 deaths due to influenza, cold, shingles, etc.
Spain 1,500 deaths due to shingles, influenza and cold.
Germany, 1,600 deaths due to influenza in larger German cities.
Czechoslovakia - Influenza epidemic increased death rate in last 10 months by 55 per cent in some

Italy: Scores of deaths attributed to cold, and estimated increase of four per cent in death rate.

Holland: 200 deaths from influenza and shipwrecks.

Austria: 150 deaths in Vienna due to cold and influenza.

Irritated Throats**

Simply wrap a cup of "Buckley's" in a paper towel and use the resulting wad as a gargle. The mentholated oil strings to a throat, inflamed by colds, flu, or allergies. The mentholated oil soothes and the menthol should ease the irritation. The first two uses are most helpful. When the throat is no longer inflamed, the mentholated paper can be used as a throat lozenge. The mentholated paper can also be used as a throat lozenge. Maintain The Quality Of Alberta's Crops

BETTER SEED

Better Yields — Better Grades — Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use of this spring by farmers throughout the province.

High Quality, Clean, Treated Seed Cereals in order to reduce the heavy annual losses sustained by wintering inferior seed.

- 1. Using registered seed treatment methods.
- 2. Using seed of high quality commercial seed.
- 3. Having seed tested for germination and purity.
- 4. Treating seed for frost.
- 5. Thoroughly cleaning seed intended for seed.
- 6. Having only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early before the supply is exhausted.

U.F.A. Local, Boards of Trade, the Wheat, Pot, Beans, Commercial Grain, the Press, and many other organizations are working in co-operation with the

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.A. Agricultural Department, and the University of Alberta.

"Hail Fellow, Well Met"

That's what they all say when they foregather with Alberta's beverage champion—

ALL ABOUT IT

The man is a successful producer of the beverage which is sold in the city. He is a man of many talents and is a man of many talents.

Good fellows are the best judges of congenial company, and they know the true spirit embodied in these refreshments that proudly uphold the traditions of beverages.

CHAPTER XVI. Continued.

Wild horses, dead ripe, hung in the air.

A soft "prick-prick" came from the leader of a crowd of wild horses that were feeding on the grass.

The summer had been one of an exceptional dryness. For several days there had been no rain, and a blinding heat had been in the air.

ST. PATRICK'S CHURCH PLEASES LARGE AUDIENCE

A large audience attended the St. Patrick's church held in the St. Paul's theatre under the auspices of the Catholic ladies last Wednesday evening.
The programme consisted of a three-act play, "Mystery of the Rosary," by an Edmonton act, a one-act play, "Crane," by a local act, namely, Miss Anna Snowdon, Messrs M. Barrett and L. Deane.
The whole programme was thoroughly enjoyable and was appreciated by the audience.

ST. PATRICK'S PROGRAM OF ROAD CONSTRUCTION

A start will be made on Alberta's 1930-1931 program of highway construction as soon as weather conditions will permit, announced Hon. O. L. McPherson, Minister of Public Works. The work to be undertaken will involve an expenditure of some \$1,000,000. The programme of the road between Medicine and Prudhoe Creek has already been started and a number of other projects will be commenced within a short time.

R. J. Scott, principal of McCallay school, Edmonton, has been appointed Inspector of Schools for the Oyma Inspectors concerning the late P. L. Afterward whose death occurred recently. Mr. Scott, who has accepted his present position for the past two years, has had twenty-one years' teaching experience and is well qualified for the duties he will take up.

SUFFIELD LINE OF C.P.R. TO BE COMPLETED

Completion of the Suffield branch of the Canadian Pacific railway connecting Arvewood and Blackie will be commenced during the present year. It is anticipated by D. C. Coleman, western vice-president of the C.P.R., that the project will be completed during the summer and it is expected that the line will be ready for operation during the spring or summer of 1931. Completion of this road will bring a large section of important grain growing territory within easy reach of the coast and the Pacific coast.

Easter Message

"As he Adam, all the world is in the shadow of death. But the world is not to be full of a spiritual hunger, longing, desire. Only one real satisfaction can be found for the deepest aspirations of the soul and that is in God. The man who goes to Church with a heart of prayer and love, and with a knowledge of Christ as King and God, will find a spiritual hunger in his heart can never more empty away, for all who turn to Christ to meet him. Not in empty hymns, or lovely words."

Josephburg

We are pleased to have Mrs. Gus Dyer back from Lacombe hospital, where she has been laid up for a few days.
Inspector C. H. Robinson visited the school Thursday last, and expressed satisfaction with the progress of the pupils.
Country people who are interested in the New School Act should try to attend the debate to be held at McPherson College, Edmonton, on April 1st at 8:30 a.m. Leaders in the debate will be C. E. Gibbs, M.L.A., Weston, Wm. of Calgary, Wm. Wallace, M.A.P.E.C., a distinguished chemist and a Barnard pioneer farmer; and A. J. Powell of Josephburg.

A place postcard from Mrs. A. Winkler tells us that she and the children are having a fine holiday in Germany, though the cold has been very severe.

Bruderheim

The Bruderheim Board of Trade met last Wednesday in the dining room of the Victoria hotel. Many important issues and questions were discussed by the most representative merchants and business men of the town. It was decided that the board should have the telephone bank service extended from July 1st to 1st of August. To reach this objective it was suggested that a thorough census of the district be made. New telephone subscribers in order to meet the extra expense of a 24 hour service.

All the members of the board were also in favour of having a doctor's office and hospital established in this town. Bruderheim already has a drug store, which was opened up here a year ago by Mr. Stewart.
The board also felt the need of a police station office. This office to be located after by a Provincial representative who would not necessarily reside in this town but who would come to Bruderheim at regular periods in the week.

It was also discussed at the meeting that a Justice of the Peace be appointed. This office became vacant when Mr. F. W. White, our first J. P., moved to Port Saskatchewan to resume business there.
Since Bruderheim is two miles north of the main highway, strangers often have difficulty in finding it. The board decided to erect a big sign at the two mile corner on the highway for the convenience of strangers and travellers wishing to enter Bruderheim.

Good Hope

Mr. Penning and Mary are spending a few days in Edmonton.
Two of the most popular people of this district have been seen checking by here in their home car. Another sign of spring, eh?

The slightest way to find out if your girl is a good cook is to drop in for a few days unannounced when the old lady is up.
George Hume is up at Mendon giving his farm a going over.

CHRISTOPHER REED

Mr. E. R. Gibson is a noted doctor, being one of the finest party of his kind in the province who were lost on Mount Baker in the summer of 1910. Mr. Gibson also was the first man with his guide to climb the mountain which is known as Mount Foster.
The letters were given under the auspices of the A.T.F.A. R. George's book filled with suspense, doesn't it? George Carl has been married and married his living room for the summer. Jim Butler is trying to persuade him to do the same. George says, "I believe I will."

**Buying on the
Installment Plan**

PURCHASING commodities by paying "a dollar down and a dollar a week" has grown into great popularity. Often the object purchased is what we before it is a necessity, and the purchaser continues to pay. Buy yourself a vacation on the installment plan by paying regular installments of your earnings in a Canadian Bank of Commerce savings account. The money is always available for use if required and there is no depreciation, but savings increase as time goes by.

WE cordially invite you to visit our special Spring display of the new Chevrolet Six.

Here, in a price class that has hitherto been occupied exclusively by four-cylinder automobiles, you will see displayed a line of beautiful models that bring you over-riding advantages of six-cylinder performance in the price range of the four . . . six-cylinder smoothness, six-cylinder reserve power, six-cylinder speed and six-cylinder security.

And this amazing six-cylinder performance is matched by improvements by the beautiful new Fisher bodies. Longer, lower and roomier . . . finished in striking new colors . . . and offering numerous outstanding comfort and convenience features—they introduce into the low-price field a new concept of value.

Come in any time the week of April 10th to 27th. We want you to see for yourself that no other car in the world can give you so much at prices within the reach of all.

You are cordially invited to see Our Special Exhibit of the New Chevrolet 30

Science in Service of Mankind

When the real story of human progress is told, probably the noblest contribution credited to the present generation will be the advance of science with pursuits of peace and the mobilization of scientific minds for the common good.

This generation, more than any previous generation in human history, has afforded a demonstration of science from war. In the past, the scientific mind was directed to the study of the physical world, industry and commerce for the most part having to sustain themselves by the sweat of their brow, and the scientific mind was not primarily directed to the service of mankind.

This is a broad generalization, in the specific case may not be true, but it is a generalization that is true. The scientific mind has been directed to the study of the physical world, industry and commerce for the most part having to sustain themselves by the sweat of their brow, and the scientific mind was not primarily directed to the service of mankind.

In the case of the scientific mind, the scientific mind has been directed to the study of the physical world, industry and commerce for the most part having to sustain themselves by the sweat of their brow, and the scientific mind was not primarily directed to the service of mankind.

The scientific mind, in the case of the scientific mind, has been directed to the study of the physical world, industry and commerce for the most part having to sustain themselves by the sweat of their brow, and the scientific mind was not primarily directed to the service of mankind.

The World War was a general mobilization of science not only in Canada, where for some time the scientific mind has been directed to the study of the physical world, industry and commerce for the most part having to sustain themselves by the sweat of their brow, and the scientific mind was not primarily directed to the service of mankind.

Canada came into the movement, but having entered, it was now displaying the energy and enthusiasm characteristic of its youth and growing power. With agriculture as the basis of the country, it is natural that the mobilization of science in Canada should be directed to the service of the advancement of that industry. Within this movement, the chemical has turned its attention to the molting machine of wheat. The biologist is studying the theory of breeding crosses of the different kinds of wheat, the chemist and the physicist are working on the control of the wheat. The physicist has begun to investigate the temperature and the expansion of concrete, power problems, water supply and waste to make water. The chemist is working on the control of the wheat, the biologist is studying the theory of breeding crosses of the different kinds of wheat, the chemist and the physicist are working on the control of the wheat.

Heretofore already have been the achievements of the scientists at work in the Dominion Post Research Laboratory, at Winnipeg. The progress already made toward the production of a real wheat-virus vaccine will meet requirements of health and yield have been improved so as to prevent any such spreading development in the future.

TRAVELLING HEALTH

CLINIC STARTS SEASON

The travelling clinic of the
division of the Alberta Department
of Health, which has rendered valuable
service in many outlying sections of
the province during the past two
years has started its summer for
the 1929 season during the past week.
Some 24 centres will be visited and
the doctors and nurses in attendance
will follow up the work which has
been done in winter by means of
a staff of public health nurses through
rural schools. The clinic will be held
in charge of Dr. R. T. Washburn,
medical superintendent of the University
hospital in Edmonton. The first
week of the clinic staff will pay
particular attention to the treatment
of women and children. Included in
the party will be Dr. A. E. Hay-
den, Provincial Laboratory Director.
Dr. H. E. Gieseler of the University
of Alberta and four trained nurses.

MANY TO ATTEND

OF CO-OPERATION

Judging from the number of mem-
bers already received by the commit-
tee in charge of arranging the
summer attendance of farmers and others
interested in co-operating problems,
it is predicted for the Alberta Institute
of Co-operation to be held at Leth-
bridge, Alta. and Vermilion during the
week of June 24th. Arrangements for
the program at the three points have
been practically completed and the
admission of the speakers secured. In-
cluded in the program are: Dr. R. T. Washburn,
medical superintendent of the University
hospital in Edmonton. The first
week of the clinic staff will pay
particular attention to the treatment
of women and children. Included in
the party will be Dr. A. E. Hay-
den, Provincial Laboratory Director.
Dr. H. E. Gieseler of the University
of Alberta and four trained nurses.

PLACEMENTS INDICATE

INDUSTRIAL GROWTH

Indicators of the industrial growth
to Alberta during the last year in the
voluntary report submitted during
the past week by Walter Hamilton,
Minister of Labour, indicate that the
number of persons employed in the
province during the year 1928 was
600 over the previous year's figures.
Employees under the Factories Act
in the male section increased by 80
per cent, and in the female section
by 12 per cent, over the preceding
year.

Of vacancies for males reported
92.5 per cent, were filled and of male
applicants 82.5 per cent, were placed,
corresponding figures for female em-
ployment being 84.5 per cent, and 80.5
per cent.

BASEBALL

The Fort baseball team went to Brandon last Thursday and defeated their team 10-4. The Fort team was hitting freely, as can be seen by the score, and also batted well to support of Bob Brown, who was pitcher.

The Fort also had the Edmonton "Bulls", runner-up of the entire city league, last Friday by 10-11. This was a hard-fought game, and the Fort boys did well to come out to the top. Batteries: Bulls—Dunn, Wagner and Henning; Fort—Pesch and Bedford.

The Fort had their home opener by Washington on Monday, the victory being 10-1. The Fort team was hitting freely, as can be seen by the score, and also batted well to support of Bob Brown, who was pitcher.

Noxious Weeds:-

Are unsightly in fields and gardens and along

roadways.

Rob the soil of valuable plant food

Consume space which should produce grain.

Reduce the grade of the threshed crop.

Cost money to thresh, haul and ship to market.

Entail heavy losses in dockage.

The first week in July has been designated as

WEED WEEK

and a special campaign urging the eradication and control of noxious weeds will be conducted.

Watch for articles in the press and for announcements of meetings and radio addresses.

Published by a committee representing the ALBERTA SEED GROWERS' ASSOCIATION, ALBERTA ADVISORY WEED BOARD, ALBERTA DEPARTMENT OF AGRICULTURE.

Local News

The hard thing about making money last night was to find it.

St. George's Hall held a musical evening and sale of home cooking to the parish hall last Saturday.

Dr. R. H. Mearns, Edmonton, has been elected president of the radiological section of the Canadian Medical Association.

The audience of the program at the Empress theatre is being maintained. "The Big Parade" and "The My Darling" were the offerings for the past two weeks and they were well received. "The Grip of the Truth" is announced for this week.

Mr. Williams is building a residence

for himself on Denison avenue.

While planning recently Raymond

Wells considered an Indian

avenue land in perfect condition.

New housing to be located at the

front of the provincial jail and along

the new highway. This will be a

new difficulty for those who try to

live in the city.

Work has been started on the

Chambers and Dithenon on Grand

avenue and graveling of the main

highway, which passes through the

town. This made business men

in the city should consider the

inconvenience while they are about it.

A fairly large audience witnessed

the moving picture "Fanny Hill."

LOCAL NEWS

George Cook of Vancouver was in town on Monday.

A. H. Rogers left last Friday for a holiday at the coast.

A break in the power line on Monday was responsible for the "jumps" being off for a few hours.

The Alberta Wheat Pool will hold a meeting in the Memorial hall on Friday, August 5, at 8 p.m. Mr. Armstrong, who has just returned from Argentina, will speak on the situation in that country and matters side will be shown. When Pool matters will also be discussed. Anyone interested is cordially invited to attend.

The patrons of the Empire theatre were given their first last week when they witnessed John Gilbert's performance in "Four Walls," assisted by Vera Gordon and Carmel Wright. The offering for three evenings of this week is "Ben Hur," a picture you should see. This is a very exceptional picture, cutting Mr. Cranston a great deal more than usual to obtain. For this reason he has had to raise the price of admission. The editor saw this picture in Edmonton and can guarantee you will be perfectly satisfied to see the additional cost for the privilege of seeing it.

BASEBALL

The Fort boys went to the baseball tournament at Andrew last Friday and defeated Waskatunga in the first round 6-3. They met the Andrew team in the final and after the score had been tied on three occasions, the third being at the seventh inning and lasting until the tenth, the Andrew boys made a run and won the event. The Fort received \$15.00 for second place.

On Monday the boys went to the Westlock tournament and were drawn to play Westlock in the first round. This was a very close game, the Fort coming up from behind in the ninth inning and almost tying the score, the runner being put out at the home plate. The score was 5-7. Had the Fort been drawn against Burnhead or Athabasca, the other competing teams, they would have been certain of second money at least as the latter two were comparatively weak. The Fort team's expenses were paid by Westlock as promised.

MR. JACKMAN GIVES INTERESTING TALK ON ARGENTINE

Speaking to a large gathering from all parts of the district at the Municipal District of Clover Bar on Friday evening, August 13, Mr. W. J. Jackman, one of the "fathers" of the Wheat Pool, and now representative in the Argentine, gave a hard and very interesting account of agricultural affairs in the far south.

Mr. Jackman showed how the Argentine farmers are compelled to look in every way that it was going three times to dump their wheat to a pitiful level between 10 and 15 cents. Their poor economic status is shown by their poor economic status as shown by the fact that the entire wheat crop of the country is stored in the hands of the few and the unimmaculate, 11-12.

Marketing by sacks, grain buying for the local and an alleged anti-trust, attempted reform, looked for the "big men" and the beginning of farmer movements, were rehearsed. It is expected that the near future large amounts will be expended by the state in establishing a wheat-moving system slowly game in their half of the 7th when revealing "our own" increasing with two on four and only one down (continued on page 6)

OBITUARY

Mr. Sarah Agnes Houston, beloved wife of Mr. Robert J. Houston of Fort Saskatchewan, passed away at the family residence on Thursday, August 12, at the age of 77 years. She leaves to mourn her loss, besides her husband, one daughter, Mrs. E. M. Ward, Fort Saskatchewan, and one son, Mr. A. Whitson, Glendon, Manitoba.

Deceased was born in Dresden, Ont., daughter of the late Mr. and Mrs. Robert Whitson, who moved to St. Thomas, North Dakota when she was thirteen years of age. Mrs. Houston came to Fort Saskatchewan as a bride nearly 25 years ago, and has resided in the same home during all that time except for three years spent in Edmonton.

Mrs. Houston was the first organist in the Partridge Hill district and for fifteen years or more, while her health permitted, took an active part in all church and social work. She was president of the first Red Cross Society formed in Partridge Hill and a faithful worker during the war. She blossomed in this country, giving a home to new settlers when Edmonton was the seat of riot and settlers lived for aye.

The funeral service was held Sunday afternoon, August 8, from the Fort Saskatchewan United church. Rev. K. J. Hodgins officiated and interment took place in the local cemetery. Beautiful floral tributes were received from: The Family; Nan and family; Albert and family; Ray and Nellie; Tom and May; Sadie and Bill; Mr. and Mrs. Stanley Whitson; Mr. and Mrs. E. G. Bayless; Gladys and Howard; Edmonton; Mr. and Mrs. G. H. Lane and family; Edmonton; Mr. and Mrs. J. T. Wallis; Wil. Rae, Raymond, Ellen, Jack and Edna; Mr. and Mrs. Gordon L. Gould; The Hudsons; Mr. and Mrs. W. Mager; Mrs. Attewell; May, Wesley and Wilfred; Ernie and Lily; Partridge Hill W.M.B. Club; Carrie and Vernon; Mr. and Mrs. Ralph Smith; Mr. and Mrs. W. O. "The Alberta Wheat Pool Expects Every Pool Member Will Do His Duty"

If All Are Possible

DELIVER ALL POOL WHEAT TO POOL ELEVATORS

Pool elevators can handle Ninety Per Cent. of All Pool Wheat

With a short crop this year it is imperative that Pool elevators should handle as much grain as possible.

Pool members' safety and the protection of the Six Million Dollars invested in Pool facilities demands that every bushel of Pool wheat that can be delivered to a Pool elevator should go there.

Two cents a bushel farm wheat will be paid on all Pool wheat held in storage until December 31, 1930.

THOMAS SEEKS OPENINGS HERE FOR UNEMPLOYED

OPENINGS HERE FOR UNEMPLOYED

London, Eng. - When Rt. Hon. J. H. Thomas, Lord Privy Seal and unofficial Minister of Employment, reaches Ottawa, he will emphasize to the Canadian Government that more openings for British labor could be created in the Dominion if financial and enterprise were utilized more fully to develop Canadian industries, according to the Manchester Guardian.

The newspaper declares that Mr. Thomas wants to carry out the Board of Trade suggestion that British industry might set up manufacturing concerns in Canada, a suggestion that is sometimes referred to as "meeting the other side in the door."

The *Guardian* also says that Mr. Thomas may stipulate that if a considerable amount of British capital is to be invested in Canadian public works, such as the construction of roads, British labor must be employed. And if the Canadian reply to this is a question as to the fate of the British workers when the roads are completed, Mr. Thomas will answer that in view of the rapid expansion of Canadian industries there would be a reasonable prospect of

**Pacific Ports Lead
In Grain Exports**

Vancouver, B.C. - Vancouver Allied Pacific coast ports lead Canada in export of Canadian wheat, according to totals furnished by the Vancouver Merchants' Exchange and computed from official figures compiled by the board of grain commissioners.

Vancouver, New Westminster, Prince Rupert and Victoria shipped a total of 87,900,000 bushels in the 1932-33 season or 36 per cent. of the total Canadian export, while Montreal, Quebec, Halifax and other At-

lastic ports combined exports accounted for \$2,000,000 bushels of Canadian wheat.

From these figures it is deduced that Vancouver is not cutting in on the trade of Montreal, but is shipping at the expense of United States Atlantic ports, which shipped 67 per cent of the total in 1921-22 and have since declined to 46 per cent.

The Merchants' Exchange figures do not take into consideration grain other than wheat and shipments of United States wheat through Cana-

Charged With Arson

Regina Youth Says He Set Fire To Parliament Buildings

Regina, Sask. — Donald Johnston, 22 years old, who confessed to having set fire to the doors of the parliament buildings, has been committed to stand trial on a charge of arson. A confession written by accused

was introduced as evidence, in which accused stated that he, with six other men and one woman, had formed an organization and had raised \$11,000 for the purpose of starting a newspaper "The Nationalist," which was to oppose the Gardiner Government, and that the burning of the parliament buildings was to start activities of the organization. The man who held the \$11,000, however, had disappeared together with the money. Magistrate Heffernan refused to allow had

What is Education?

Education is the process of learning. It is the process of acquiring knowledge, skills, and values. It is the process of becoming a better person. It is the process of becoming a better citizen. It is the process of becoming a better human being.

The higher standard of living now so universal, as contrasted with that of the past, has the effect of making parents to give their children high school and university training. This is the result of the fact that the standard of living is now so high that parents can afford to give their children a high school and university education.

A school is a place where a child is educated. It is a place where a child learns to read, to write, to think, and to act. It is a place where a child learns to become a better person. It is a place where a child learns to become a better citizen. It is a place where a child learns to become a better human being.

Buy a Poppy!

It isn't often the second girl's half-penny as we don't make the one to this time.

Tuesday closed at three of Mrs. J. Lachance on November 11. Five lunch. Everybody welcome.

As those camps followed with the year end of a great truck today on the highway out of town. The camp was badly damaged and a passenger seriously injured.

The Girls' A.A.A. held their annual ballroom dance last Friday and, as always, had the most successful evening. There was a large crowd present, the music was splendid and the refreshments all that could be desired.

Mr. George's W.A.C. officer and dance in the Memorial hall, November 11, from 8 to 11. Supper: adults 10c, children 5c. 12 years, 10c. Dancing from 9 to 11. \$1.50 couple; extra lady 10c. Refreshments served free at voluntary. Education committee.

Gangs of boys and girls were arrested Saturday night and found guilty of mischief in the city. Outriders were overpowered, four machinery and other valuable property was taken by them other than where they belonged. The town policeman did his best to keep law and order but there were too many gangs for one solitary man to cope with.

The Post has been well selling poppies on behalf of the Canadian Legion on Saturday. These poppies are made by disabled veterans of the Great War and the money we can do to buy one and wear it in memory of those who died in that dreadful time. Her Excellency, Lady Willingdon, is patroness in chief for all Canadian and requests that all citizens wear a poppy and so pay respect to Canada's dead soldiers.

A WILL that can't be broken

An EXPERT Executor without cost

A LIFE insurance policy is a will that needs no lawyer to explain and no judge to interpret.

It is clear, final, unbreakable.

If, instead of being paid in a lump sum, the proceeds of your policy are left with the Sun Life Assurance Company of Canada, you obtain, free of cost, the most expert fiduciary service in the world for your dependents.

Your assurance estate is conserved to most obligations not fully matured at your death; to care for your wife; and to educate your children.

The earnings and any part of the principal can be paid over at regular designed intervals as desired.

Your modest funds are merged with those of a great corporation and share in the wonderful earnings from that Company's investments.

Your estate can't be succeeded by an incompetent neighbor executor.

NO RISK - NO WORRY - NO EXPENSE

The best way to create an estate, and the best way to conserve an estate, is by life insurance.

Consult a Sun Life representative for particulars.

ST. GEORGE'S CHURCH
TRANSPORTING SUPPER

The annual Thanksgiving supper provided by the ladies of St. George's church was held in the Memorial hall Monday evening. Before the hearty ladies were admitted the tables laden with food and plenty with their array of china, silver, flowers and colored scarves. A large number of people attended and expressions of satisfaction were universal from those who had dined wisely and quite well, thank you.

A dance was held in the evening and to this a large crowd was attracted. The children had their sing-along as they usually have at St. George's dance but their time limit had to be curtailed because the floor was so crowded. Al. Forrester's orchestra supplied the music and the merry-making continued until 2 a.m. interrupted only by the serving of refreshments in the buffet room at midnight.

LOCAL CANADIAN LEGION
MEMBERS' WILDLIFE HEAD

Local members of the Canadian Legion attended a short service and annual picnic for the two members since 11 a.m. at the Memorial hall. The picnic was held in the Memorial square and was supervised by the committee of the moment and the "Last Post" sounded by eulogistic Victor, followed by a prayer by the Rev. C. W. Sinclair.

Some of the boys were present in a small and a few, too few, ladies.

HEALTH SERVICE

SIXTH MEDICAL ASSOCIATION

CANADIAN HONOR

There is one tooth which is the most important in securing a properly developed jaw with regular teeth. This tooth is the first permanent molar, and it is commonly called the "sixth year molar." Its proper use is not to be unduly long, however, but to be used as a support for the teeth which come in later than the sixth year. It comes in just behind the temporary or baby teeth. Indeed, it is often mistaken for one of the baby teeth and, as such, it is neglected, the parent thinking that it will be replaced by a permanent tooth later on.

This important tooth can be easily recognized. In the temporary set, there are ten teeth above and ten below, or in other words, five on each side above and below. If there are more than five, then the sixth tooth which appears is this most important first permanent molar, which must be carefully guarded and preserved because of its being the "keystone of the dental arch."

The loss of the first permanent molar means that the jaw will not be properly formed, the other teeth will not be in proper position, and, as a result, there will be the perfect malocclusion that there should be.

The importance of the tooth has been so health is generally known. A clean mouth means healthy teeth and gums. Dental disease is responsible for a great deal of disease and suffering. It is essential that parents and those responsible for children realize that, in order to have sound teeth in adult life, an early start must be made. We offer here to this first permanent molar which often appears in the fifth year which must be preserved if the child is to have sound healthy teeth. This timely means that dental care cannot be postponed, and that it must begin early in life.

Proper diet, cleanliness, regular visits to the dentist are the basis of dental health. If there are large early and provided in satisfactory results will be achieved.

Questions, concerning health, addressed to the Canadian Medical Association, 111 College Street, Toronto, will be answered personally by letter.

Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how many are to pass up the home printer and let the orders go to city places which have no interest whatever in rendering complete to get printing orders and the work to pay for them. Remember that the home printer is constantly promoting the interests of the home community and pay one's bill to yourself and your local printer to keep up these efforts by at least having your printing done locally.

The Ladies' Aid was held at the home of Mrs. and Mr. Winkler on Thursday, December 4. Although the weather was rather stormy there were over a hundred present. The program and tables were tastefully decorated with candles, evergreens and Christmas pictures. Mrs. Winkler gave special remarks for the occasion. A display of jewelry was shown by a society, assisted by Mrs. K. M. Thompson and the Ladies' Aid. The program was held at the home of Mrs. K. M. Thompson.

Now Al was in front of Grace, his hands reached toward her throat but she did not flinch or make a sound. She put her two long fingers round her white throat, while the flaming, terrified eyes rose on a face with her eyes, then above her. The eyes looked at her. She was pulling her hands down to her waist. She was pulling her hands down to her waist. She was pulling her hands down to her waist.

A Challenge to Canadian Food Producers...

Great Britain wants more Canadian foodstuffs. The plain fact is that the increase in trade in some of our food exports to the old country is not keeping pace with the growth of demand.

Britain's markets are wide open to Canada. Because of the restrictions of Canadian products, the activity of our Trade Commissioners, and the effects of our advertising, the British consumer is more familiar with those products than ever before, and consequently more inclined to buy.

Good will to Great Britain towards Canadian products never has been at a higher point than now. All the facilities of transportation for all classes of goods from Canada to Great Britain have been provided.

But we Canadians overlook or neglect the opportunities for increased export trade which are thus laid before us.

Just because domestic markets are good, shall we as producers be so contented as to fail to satisfy so large a market which is more dependent upon our products than ever before?

Not yet. Is there among our producers an adequate realization of the opportunities for increased production which present themselves in the British markets abroad.

If you are a producer or dealer in foodstuffs, you can make to your own profit in gaining a larger share of this market. Almost every commodity in this country stands to benefit. The result can be obtained by:

1. Producing more of the kind of products than the British consumer wants.
2. Keeping up a constant supply.
3. Maintaining quality standards.

Through the Commercial Intelligence Service, this Department will render valuable assistance to any exporter. Trade Commissioners' Offices in Britain are especially well-equipped and strategically placed to handle any export problem on behalf of Canadian exporters. Inquiries regarding British Trade receive prompt attention. Write to the Commercial Intelligence Service, Ottawa.

HOCKEY

The Fort hockey club lost a hard fought game to the Chalmers boys last Friday night at the local arena by the score of 4-2. It was the first game played by the two boys where the Chalmers have played several and were in better condition. However, with more practice and a few games played the boys will be able to reverse the score.

The local line-up this season is made up mostly of juniors and they all seem to have the "bug" and with more combination play and a little more confidence will be able to hold their own with any local horsemouth. "Mab" Terrier and Francis Plimley, a defence, while still in their "wrens" are his heavy followers and showed great effectiveness with their back checks and stiff body checks. Earl Lane, Hugh McManis and Tony Henry, also juniors, played exceptionally well on the forward line. The veterans, Roy Stender, Pete Weber, Heston and Peterborough, all players, well and with their experience should help to bring out the best in the younger players.

Pete Weber's second goal of the night was the high light of the game. It was the result of a solo rush down the right fence and his fast shot into the top corner of the net quite baffled the visitors' goalie.

The local line-up was: Defence—Heston, Terrier, Plimley; forwards—Weber, Stender, Lane, Heston Henry.

Inscribed with the plan of presenting all government records, which pertain to the history of Canada, and which are of practical use, the Public Archives of Canada, situated in Ottawa, contain many collections of records of intense interest.

It is necessary to delay into the history of the formation of Canada to realize the importance of the Archives. Originally what are now the provinces of Ontario and Quebec formed the French colony of Canada. What are now the western provinces, so far as they had any administration, were under the control of Hudson Bay Company.

In 1791 the provinces were divided into Upper and Lower Canada and in 1841 was officially declared to be the province of Canada.

Many papers of state were lost in this period and others were taken back to France. The original papers of the reigns of 1790 are in Paris. Local records of judicial, administrative and administrative character are in Quebec.

In 1871 a petition signed by scholars and writers was presented to parliament asking access to the historical records of the country. The offices of the Dominion Archives were then created under the Minister of Agriculture.

Lord Minto, governor-general of Canada, in 1866 observed interest in the compiling of records and it was due to him that the present building was built. Through his influence a very important collection of early papers in his name's office were deposited in the Archives. The original state papers are now housed there and records of historical importance in the possession of the Dominion government of earlier date than 1867. The British government contributed the great bulk of hand-written papers of the British army in North America from the end of the American Revolution year to the withdrawal of the British from Canada in 1795.

Not least important among such historical sources available is the collection of letters, postcards, drawings and prints, which was really commenced in 1868. There are some 10,000 framed pictures, 6,000 unframed separate pictures, and all this number some 10,000.

Manuscripts of the French and English period, maps and charts, hand-drawn, either the original copies or prints, are among the material assembled which proves invaluable to writers and historians.

War papers collected by Dr. Douglas form a very interesting collection. The library has some 60,000 volumes as well as 6,000 pamphlets, newspapers and periodicals, many of these.

One exhibit which immediately strikes the imagination of the most casual visitor to the Dominion Archives in Ottawa is the model of Quebec, the fruits of the genius of Louis J. B. DeLongue, of the Royal Engineers, constructed in 1781, and housed in 1860.

The model is cut entirely out of wood and modeled to a scale of one (54 feet to the inch) and is the City of Quebec without any details lacking. Even the minutest ships riding at anchor on the banks of the St. Lawrence are shown.

DeLongue's model has had a chequered career. After it was completed it was placed in the hall room of the Château de Louis, and in 1813 was taken to England by Colonel By and placed in the Waterloo Arsenal. It remained there one hundred years and was then rescued from obscurity by Dr. A. G. Douglas, C.M.G., and through the influence of our late Governor-General, Earl Grey. When it came into the possession of the Department of Dominion Archives, it was in a most satisfactory condition. It had received a generous coat of grey paint which had blotted out the doors and windows of the tiny houses. The guns of the batteries, the trees in the gardens, the division walls and fountains had all disappeared under the relentless brush of the "renovator."

The whole model is slotted out to show particularly the fortifications and public buildings. It is nearly 50 feet long and contains a considerable portion of the Plan of A. G. Douglas, as far as the spot where Wolfe died. There is singular contrast to the very shape and protection of the rock, the elevations and descents in the city and the plan particularly those eminences which commanded the garrison.

A few of the outstanding places marked in the model, interesting to those who even faintly remember the early history of Quebec, are: Cap Breton and the King's Ship Yard, where French powder magazines; the spot where Montcalm fell; site of the King's location; the Lower Governor's garden; the Upper Governor's garden and Mont Carmel; the King's ordnance store; where the London Coffee House the Church of St. Vincent; Frontenac; the Bishop's Palace; the Orléans Hotel; Château de Louis; the Cathedral of St. Francis; the Court House; Ursuline Convent; Upper Town market; St. Louis; Bishop's residence; 1761; the new military barracks and chapel; the new jail; the Parliament Building and the General Hospital.

This is just a brief review of the many interesting features of the model of Quebec which was presented to Canada by the British Government in 1925.

The total number of horses in France this year is estimated to be nearly the same as in 1912, when the automobile was not a very common vehicle.

The government was aware that in 1912 there were approximately 2,200,000 horses in France. During the war millions of them were killed in action while many were eaten for food.

The years following the war hastened death, and it seemed for some time

that the Sides of France would no longer be any more. The thought only the rich could afford a horse as a riding mount while the left over would be bought by the masses.

But the farmers of France have staged a great comeback. They refused to introduce tractors and instead started breeding new herds of horses. As a result France is now well furnished with horsepower. It is also stated the quality is much better, and that more horses are butchered at an earlier age because the pub-

The need of circulating adequate and accurate information about Canada throughout the Dominion has been stressed as the keynote of the address by Dr Anderson, who left Toronto, in 1940, to engage in educational work, later becoming provincial director of education. He has taken on an intense interest for some years in the regulation of immigration and the education of new Canadians to fit them to be good citizens.

"It is a pleasure," he remarked, "to drift back to the scenes of my youth."

Dr Anderson asserted that few Canadian children learned that the Dominion was larger than the United States and 18 times bigger than Germany.

The Immigration Problem

The subject of immigration, which is arousing a large amount of attention by the people of Canada, and causing them no little concern, has always been in the forefront of national policy. It is likely to continue to be so for many years to come. A recent article in the *Record* on the subject of immigration, written by a young man of great ability, and who is now a student in the University of Toronto, is a very valuable contribution to the subject. It is a well-written, and interesting article, and it is one that is well worth reading.

It is probably true that it is one of the most important of all national problems. It is a problem that is of great importance to the people of Canada, and it is one that is well worth reading. It is a well-written, and interesting article, and it is one that is well worth reading.

**SHORT LINE TO
THE PAS WILL BE
OPENED SOON**

OPENED SOON

Winnipeg, Man. — Construction work on the Sturgis-Hudson P.E. Junction branch line of the Canadian National will be finished about May 15 and the line will be turned over to the operating department on that date. An announcement to this effect was made by A. E. Warren, western vice-president of the Canadian National.

A very considerable saving in

pletion of this line and the opening of it for regular freight and passenger service. Between Regina, Moose Jaw and other southern

intermodal points such as Melville and Yorkton will also be brought considerably nearer to the Pas and the Hudson Bay Railway.

Until the Sturges-Hudson Bay Junction is built, the shortest route from Regina to Hudson Bay Junction is via Brown River, a distance of 429.6 miles. The distance via the proposed line, which will be 129 miles between Melville and Yorkton and 320 miles to Hudson Bay Junction, will be 320 miles.

Passenger and freight train service will be provided by the department concerned and it is not expected that an *arrangement* on train service will be made.

lated that to handle practically was possible three-year branch line program which was passed by parliament in 1987. Although it is practically the last item on that program to be

to be turned over for operation is more than six months ahead of that set by the bill.

Will Not Resign

Wm. Dr. Godfrey Will Stand Pat Over Famous Postscript Episode

Toronto Hon. Dr. Forbes Gordon, Minister of Health for Ontario, has reiterated his stand that he will not resign because of the public reprimand administered to him in the legislative assembly for his "postscript" episode.

He also denied a rumor that he will take a long vacation. Both are a pile of dreams," he

When on Sunday morning and they
clashed outside the door. They
stood there talking about how
the water was and how clear the
town and the sludge was reflected
in it and so on, and just then a
clap with a falling end came along."Any sport?" said he, for he
thought they were talking."Yes indeed," came the answer to
the question. "The water is so
clear. Check on the water. The
water is so clear. Check on the water.
The water is so clear. Check on the water.""A sludge and two lovely sludge

What Happened At

The Council Meeting

Following are the minutes of the regular meeting of the council of the town of Port Saskatchewan, held on Thursday, July 8, at 7:30 p.m.

Present: Mayor H. Hagan, Councilmen: H. Hagan, G. Hagan, and H. Hagan.

Mayor H. Hagan presided over the council (representing the Canadian General Electric Co.) and read minutes of the previous meeting.

Mr. H. Hagan reported that the council had received a letter from the Canadian General Electric Co. regarding the proposed installation of a power plant in the town of Port Saskatchewan.

The council discussed the matter and decided to refer it to a committee of three members to investigate the proposed installation.

The committee will report back to the council at the next meeting.

There being no other business, the meeting adjourned.

The World's Grain Exhibition

The World's Grain Exhibition is now in progress at the Crystal Palace, London, England, including a representative display of grain from Canada and with prominent Canadian exhibitors, the poultry industry is also represented. A year or two ago Canada was honored by being host to the World's Poultry Congress, and this time the grain industry is the most successful of the world's congresses held up to that time. Canada received most valuable publicity as a result, while the poultry industry throughout the Dominion was decidedly benefited.

Canada is going to host a world's exhibition and conference in 1923, when the World's Grain Exhibition will be held in the city of Regina, Saskatchewan. It will be the greatest grain exhibition and conference ever held, with over \$200,000 in cash prizes, an unprecedented sum, to be awarded, while grain experts from all over the world will be in attendance to participate in the conference.

Already the response of countrymen to every pamphlet has met enormous expectations. To date nearly one million copies of the official price list have been distributed in all sections. They have been placed where they will do the most good, and give a maximum of advertising to Canada and Western Canada in particular, in every corner of the civilized world.

Canada is a country dependent on the grain industry, and it is therefore the duty of the government to do all in its power to promote the grain industry, and to do all in its power to promote the grain industry, and to do all in its power to promote the grain industry.

The management of the World's Grain Exhibition and Conference has taken advantage of the World's Poultry Congress, in London, England, this month to further its campaign for participation at Regina in 1923, and has sent an exhibit to London. At this time they are establishing in London the official headquarters of the exhibition, and will be the managing director of the World's Grain Exhibition will address these delegates and outline to them why they should participate at Regina. Afterwards he will visit the ministries of agriculture, of the countries of Europe, to drive that message home.

Exhibitors of the World's Grain Exhibition are also being prepared for the Canadian National Exhibition, and the Royal Winter Fair, at Toronto, and the International Grain Show in Chicago.

This is what is being done to bring the world to Western Canada in 1923. But this is important. Western Canada should put forth every effort to retain for this country the world's championship wheat trophy. Other countries are going to try and capture it; we are making every urging possible to make the attempt. Western Canada must therefore look to the wheat farmers of Western Canada, the best in the world, must be alert and put forth their best efforts, individually and collectively, to retain for this Dominion the proud title of the World's Wheat King.

Now is the time to prepare for the exhibition. It cannot be put off until 1923. It must be done in 1922 and 1923.

Archbishop Opposed To Death Penalty

The Archbishop of Toronto, Ontario, has expressed his opposition to the death penalty, and has urged the government to abolish it. He has stated that the death penalty is a barbaric and cruel punishment, and that it does not deter crime. He has also stated that the government should focus on improving the prison system and on providing better education and training for the young.

May Purchase Canadian Land

The Canadian government has announced that it is considering the purchase of land in the Northwest Territories. The land is located in the area of the Yukon River, and is believed to contain valuable mineral resources. The government is currently in the process of negotiating with the landowners, and hopes to complete the purchase within the next few months.

Pale Western Outworm One Of Worst Pests With Which Farmers Have To Contend

The pale western outworm is one of the most serious pests that farmers have to contend with. It is a small, white, worm-like creature that feeds on the leaves of plants. It can cause significant damage to crops, and it is difficult to control. Farmers should be vigilant in monitoring their crops for outworms, and they should take steps to control them if they are found.

10 WARSHIPS SENT TO EGYPT

QUELL RIOTING

London, England - Great Britain has approximately 9,000 troops in Egypt. Tom Shaw, war correspondent, says that the British Government has ordered three cavalry regiments, six battalions of artillery, six infantry battalions and auxiliary troops. Shaw says the troops are stationed at Ismailia, Alexandria and Port Said.

There was some question among the British observers whether the Government would not interfere with the Egyptian right of self-determination, but a foreigner there says that night or more foreigners were killed in rioting at Alexandria and that the British Government was not confirmed, however, that it was certain the present British troops would be used.

The British Government has ordered the battleships "Queen Elizabeth" and "Flammarion" to proceed to the Mediterranean for the protection of

lives and property endan-

evening with this special service on Sunday
evening.

The house was occupied the evening
before when it was put up for the
night.

But, sometime during the night it
died of old age.

Mr. Lamoureux has been driving
Demarest for quite a number
years, and will take the horse with
him.

The monthly meeting of St.
George's W. A. will be held in the
Parish House at 8 o'clock, on Thurs-
day, Sept. 4th.

Passed Away

Another old-timer of the town
passed away, on Monday night.
When Oscar Lamoureux went out
to feed Demarest, the delivery horse
for the Edwards line, he found the
Thursday morning to find the horse
dead.

Duck Shooting
Open in North

Monday shooting on the duck and
goose shooting season in that part
of Alberta lying north of the Athabasca
and Clearwater rivers, and on
Saturday numerous sportsmen were
seen in the flying line on the
Athabasca.

Reports coming down from the
north indicate that the ducks are
plentiful and well stocked providing
excellent shooting.

The season for duck shooting opens
September 15, in this part of the
province.

Holiday For Air Meet
Is Decision of Town Council

The citizens in the town of Port Kaskatchewan will receive a holiday on Wednesday, September 17th.

This decision was reached after a petition was circulated and signed unanimously by the merchants and business houses in town.

This will give everyone an opportunity to attend the Edmonton Air Show.

The first plane of the Armada will arrive in Edmonton over the air field around about one o'clock.

Every person that is thinking of taking in this great air show, would be wise to get their tickets before hand.

Minutes of a regular meeting of the Council of the town of Port Kaskatchewan, held on Thursday, September 16th, 1920, at 7.30 p.m.

Present
Mayor Montgomery, Councillors, Galt, Lefebvre and Lalonde.

Minutes of the previous meeting were called for and read and approved by Council.

LOCAL NEWS

We are glad to report that Donald Chambers is not suffering from acute poliomyelitis.

He is making rapid progress towards recovery from his sickness.

The first car of wheat delivered to the elevators in Fort Saskatchewan, was loaded by R. L. Johnston, agent for National Grain Elevators, Co., on September 15th, 1930.

Miss Helen H. Chalmers, daughter of the late Mr. W. C. Chalmers and of Mrs. Chalmers, and Mr. John Chalmers, son of Mr. H. and Mrs. Ernest William Chalmers, of St. Albert, Alberta, whose marriage is taking place today at Edmonton on October 4.

The St. George's W. A. will hold a tea and sale of home cooking on Saturday, September 18th, from 2 to 5 o'clock, at the home of Mrs. W. A. Graham.

The Fort Saskatchewan was entertained by Mrs. Edithson, in her home on Wednesday, September 10th, at 7 o'clock. The guests were Miss Helen Chalmers and Mrs. C. Major.

Later in the evening a shower was held for Mrs. Otto Abum formerly Miss Helen Chalmers.

An enjoyable time was had by all.

The new addition to Mr. G. B. Bore's home was done by local labor.

Mr. T. Todd did the brickwork and the Turner Bros. the woodwork.

For Doses Relieve Attack of Cholera

J. Cooper, Mangrove, Alton, W.Va., writing I arrived in Canada with one of my boys, aged six, who was with cholera. When we arrived in Canada, and told one of the attendants about it, he asked me if I had Fowler's Extract of Wild Sassafras. I went out to the drugstore, and told him in Winnipeg. I am pleased to give the child four doses and was quite fearful by the next morning.

LEAVE THE LIQUOR ACT ALONE BEWARE OF THE CAMPAIGN OF MISREPRESENTATION

Beer is a moderate drink. Prohibitionists, in attempting to show their views on the people, try to claim it as a heavy alcoholic beverage. IT IS NOT.

The present Liquor Act allows beer to contain up to 4 1/2% alcohol.

Alberta Beerers keep well under this. Their beers range from 3.6% to 4% in alcoholic content.

BEER IS PALATABLE AND AN EXCEEDINGLY MODERATE DRINK

Compare this with whisky or brandy, ten times the strength of beer. Draw your own conclusion?

DO NOT SIGN THE PROHIBITION PETITION. IT MEANS CANCELLING LICENSES OF ALL CLUBS AND BEER ROOMS.

Leave the Act alone. We don't want the bootlegger back again.

Local Curlers Held Enthusiastic Meeting

The annual meeting of the Fort Saskatchewan Curling Club was held on November 20th, in the Central Chambers.

Quite a large number turned out, in fact it was heard that this was the last meeting they have had for ten years. The writer is glad indeed to see so many more their interest in skating and curling.

Mr. H. Thoms, president, called the meeting to order, and the minutes of the last meeting were read and adopted.

The Treasurer, Mr. A. M. Barrett read the annual financial report, which showed the club to be in good condition, and much credit is due it.

A heavy vote of thanks was tendered to the lady curlers for their very welcome donation of \$100.00 which was the means of the club finishing the year on the right side of the balance sheet.

The next order of business was the election of officers for the season 1930-31.

The following gentlemen were elected: Hon. Pres. J. D. McLean; 1st. Vice Pres. J. A. Hartman; 2nd. Vice Pres. A. J. Hartman; Secretary Treasurer A. M. Barrett; Executive J. Wright, F. E. Murray, W. A. Doherty, E. Graham, D. Harper, A. M. Carleton, W. A. Baskin.

The festive activities of the club were fully discussed, and many good suggestions were forthcoming from these present.

After much discussion the fees for Curling and Skating were left the same as last year.

Before the meeting closed a hearty vote of thanks was given to Mr. Thoms, Pres. and Mr. Barrett Treasurer for the able manner in which they carried out their respective duties during the past year.

The Fort Curling Club executive held a meeting on Nov. 20th, 1930 at 8 o'clock for their annual meeting.

There was a large attendance of prospective players and others interested in the game and all seemed to be intensely enthusiastic regarding the formation of a Hockey Club for the forthcoming year.

Pete Walter gave a very fine financial report for the year 1929. There are no debts carried over from the past season and thus we are enabled to start the new season with a clean slate.

The result of the election of officers are as follows: Pres. Collins, Manager F. R. Walter, Council R. W. French, Secretary and Treasurer. It was moved by Bob Anderson and seconded by Pete Walter that the members would be allowed by any of the players under mentioned by the manager and the secretary.

The above mentioned officers were appointed as a committee to investigate the Curlers regarding the obtaining of practice skates and any further details concerning the relationship between the two organizations.

The meeting was then adjourned and the committee presented to the Town Hall to attend the Curlers meeting.

Good Hope
United Church service will be held by Rev. Hodgins in Good Hope school on Sunday afternoon at 1.30.

Mr. Herbert Wilson spent the week-end at his home in Havill.

The storm last Saturday did quite a lot of damage all over the settlement. Among other things, Mr. W. Barrett's frame barn was blown over, killing a horse.

Our hunters had quite a bit of hard luck, there camp being burnt out and everything lost.

All their cats, drunks, blankets, and clothes going up in smoke.

But, they came home smiling with three moose.

Here is a real buy for some one. A closed car in excellent shape for winter driving. 1927 Ford Coupe. Easy terms and a real price.

PLANES TO RAVE

SMOKING ROOMS

London, England, Dec. 28. Smoking rooms may be provided on airplanes which the British Imperial Airways will use on its European and Empire routes. The company has made application to the air ministry that smoking be permitted in the new Handley Page 40-plane biplanes which they will put into service.

The design of these planes provides for a fireproof smoking room, large enough to seat twenty people separated from another compartment for those who do not wish to smoke.

A farmer received a crate containing some fruit. He wrote to the sender, informing him that the crate was so badly made that it had come to pieces when he was taking the home home with him and they had all escaped, and after much searching, he had only succeeded in finding eleven of them.

In due course he received the following reply:
"You were lucky to find eleven hens, because I only sent you six."

SQUIBS

Everyone we talk to these days are looking forward to the New Year 1931, for the return of prosperity. "As this is a time of the year when 'good resolutions' are made, it would be an opportune time for the people to resolve that they will not again chase the rainbow in vain, dealing, and when prosperity once more returns, as it will, such prosperity will be more lasting and secure."

The only solution we see for around here at the present time, is for everybody to dig in and work and spread what returns they receive over so many as they can.

By doing this it might help others to share a measure of prosperity.

MODERATION OR PROHIBITION ?

The Moderation League of Alberta, an incorporated body by Act of the Provincial Legislature, claims that moderation is the only safe solution to the liquor problem; and further claims that moderation is exemplified in the present Liquor Control Act of Alberta, which takes nothing from the rights and freedom of the people, preserves the dignity and respect of the laws of the country, and protects the weak from their own folly.

Local Hockey Town Beat Price Bayton's

The Port hockey team registered a well earned win over an Edmonton team, the Price Bayton's, on Tuesday night.

Playing before a very small but enthusiastic crowd, the locals displayed a real brand of hockey.

No scoring was done on either side during the first period, but the second and third periods were different stories, both teams from the beginning of the second were out to get the old goal in a hurry.

Two Henry husky defence men of the local squad, placed a nut one on assisted into the net from the front.

This was the first goal of the evening, for either team.

With a nice pass from Pete Walter to Roy Stricker placed another nut on the board for the Fort.

Pud Brooks, Edmonton player got the one and only goal for the visitors during the second period.

In the third and final period Earl Lane drove a nut one unassisted into the visitors net for 2 goals for the local team.

At different times during the game clashes between the opposing players started but were quickly stopped by the referee.

H. Walton and L. Diamond refereed and made the boys stick to the rules.

Coming Events

INTERESTING GATHERING TAKES PLACE HERE

A reunion of interest to many friends and relatives took place at the home of Mr. and Mrs. O. Hoot on New Year's Day, when children, grandchildren and great grandchildren gathered to pay homage to this venerable couple.

Mr. and Mrs. Hoot are pioneers of the country, having come to Edmonton in 1884. They were married three years later, and in 1900 took up a homestead north-west of Fort Saskatchewan, what later became known as Sturgeonville. Four years ago they sold their farm and their present cozy home in the Fort was built.

Mr. Hoot is 77 and Mrs. Hoot 73. Both are hale and hearty and the dinner which Mrs. Hoot cooked and served was a tribute to her ability.

Those present were Mr. and Mrs. Hoot; Rev. Father Williams, their pastor; Mr. Frank Lebel, an old-time friend; Mrs. A. Gagnon, daughter of Mr. Hoot by former marriage and her children; Mrs. K. Hoot and Mrs. A. Barrette, her two married daughters, and their husbands; Leo, Wilfred, Maurice, Yvonne, Rachel, Albert and Alma Gagnon; Mr. Wesley Haulton, Mrs. Hoot's son by a former marriage, and Mrs. Haulton and four sons, Armand, Adolphe, Alfred

2nd Vice President—Mrs. Frey.
Secretary-Treasurer—Mrs. Harver.
Executive committee—Mrs. Van Hilted, Mrs. Henry, Mrs. Frey, Mrs. Harver, Mrs. Baker and Mrs. O'Brien.
Refreshment committee—Mrs. McNaughton, Mrs. Becker and Miss Hume.

Carbon Dioxide To Preserve Eggs

Considerable interest attaches to experimental tests now being made by the poultry division of the Dominion Department of Agriculture in the possibilities of keeping eggs fresh through the use of carbon dioxide. The theory of the experiment is that as eggs from the moment they are laid give off carbon dioxide, with resultant deterioration of albumen and yolk, that if this gas can be counteracted, eggs can be transported without any essential loss of quality.

Some success has already been attained to the shipment of eggs in containers holding carbon-dioxide, and the range of shipment may be materially extended if the use of dry ice, now being experimented with, proves all that is claimed for it. Dry ice instead of melting evaporates and in evaporating gives off carbon-dioxide, thus, theoretically providing a supply of carbon-dioxide to counteract egg loss due to this element.

NOTICE Yerville

The annual meeting of the Yerville School District, No. 157, will be held in the school house on Saturday, 10th, January, 1931, commencing at two o'clock in the afternoon.

Josephburg

Friends and neighbors of Mr. and Mrs. Jacob Thomas of Josephburg, held a surprise party in honor of this popular couple's silver wedding anniversary on Friday, evening Jan. 2nd.

During the evening several very nice pieces of silverware were presented to the bride and groom.

Dancing and cards were enjoyed until a late hour.

Safety Auto Bumper
Protects Pedestrian

The device known as a rotary "anti-bumper" is fitted to the front of a vehicle and consists of a cylindrical bumper, a motor and a electric motor actuated by the battery of the car.

The bumper, fitted with longitudinal rollers, moves the car forward or backward when the bumper is struck by another vehicle or object.

London, Jan. 10. The motor of preventing pedestrians from being seriously injured when knocked down by motor vehicles is reported to have been invented by Dr. Vernon Clifford, an English scientist, according to British intelligence.

At a demonstration to show the utility of the device, a motor vehicle and the "anti-bumper" rolled him over and over for about five minutes without injury.

The inventor states that the revolutionary motor of the anti-bumper has approved the use of the "anti-bumper" with heavy vehicles.

It is only human for a merchant occasionally to challenge the necessity for advertising regularly in The Record.

Sometimes he tells us about it, saying with a kind of pride: "I guess my business can get along without your paper."

Of course it can! But why should it want to?

A merchant can get along with a poor store, half a stock and inefficient clerks—with old ideas stifling new.

Some do.

Admitting that you can get along without the use of The Record's advertising columns—where is the gain in denying yourself of its tested advantages?

Where is the wisdom of time, money and effort in otherwise attempting to reach the people of this district when you can reach them surely and effectively by using The Record?

The oldest and most progressive merchants have settled that—they use The Record.

Here and There

Among the events of major importance to be discussed at the combined district meeting of the Saskatchewan and Alberta Veterinary Associations, which will be held at the University of Saskatchewan, Regina, on January 12 and 13, will be the election of a new president for the combined association.

The sports association of the University of Saskatchewan will meet on January 12 at 2 p.m. in the gymnasium to discuss the results of the sports season and to elect a new president for the coming year.

Mr. J. E. Adairson, Real Estate Broker, has been elected president of the Real Estate Association of the city of Regina for the coming year.

On Friday evening, Jan. 18, the Ladies' Aid of the First United Methodist Church held a very successful social. It was held in the hall of the church and was very well attended. The weather was ideal, and a good number of people turned out to help. The ladies of the church were very kind and helpful. The social was a great success and the ladies of the church were very kind and helpful. The social was a great success and the ladies of the church were very kind and helpful.

"CHINA BOUND" IS A
REAL ROTARY COMEDY

George M. Arthur and Karl Davis were among the members in the audience for the Mace-Gabrey-Meyer, "Miss Bessie," which came to the Empire theatre on Friday and Saturday nights. The show was given by the Y. M. C. A. and Karl was a singer at a theater, and George was a student but not attending classes.

Both their recollections are on the floor, but so is Angus MacLellan, a theatre actress, whose wife is taking a course in drama at the University of Toronto. The show was given by the Y. M. C. A. and Karl was a singer at a theater, and George was a student but not attending classes.

Be Prepared! You start out on this new year certain hopes. To what extent do you intend to carry out these hopes and dreams, in large measure, on whether or not you are physically and mentally healthy, and so able to carry out your plans. Illness or lack of health may mean stress with and upset your intentions that the year will be a different one. You may find that you will be unable to achieve that you have set out to do, and so you will miss the happiness that

In order to avoid unhappiness, in order to prevent, as far as possible, any interference, through illness, with your work and play, it is absolutely necessary that you prepare yourself for the year which is before you.

It is nothing less than a gamble (the right kinds of food, you may over-eat, or, in some such way, you may be ruining your body wear out. Your doctor will tell you if this is so, and by following advice, you will prevent a personal wearing-out and breaking down the body machine.

The idea we wish to convey: that instead of waiting until you come ill, and then calling your doctor in to patch you up and get you back into a normal healthy condition, you go him some a year for an examination and to receive his advice how to keep well. Do not wait until you are ill. Consult your doctor when you are well in order that he may

Get Set For Banff Carnival

Off For A Mile

The stand-out vest in the vest this winter will be February 1-14 when the Bluff Winter Sports Carnival will be held. Parade of skiers, ski-jumpers, snowmobilers, curlers, hockey, skating, tobogganing, sledding, walking, and every variety of winter sport, there is added to all these the incomparable beauty of a setting in the heart of the Rockies, clothed in their winter dress of ermine beneath a sky of turquoise. The party spirit runs of Bluff is in from end to end

Acacia Castoria

Gotta Be Keweenaw

Mr. Arthur E. Root, of West Chicago, Ill., writes: "I have been using Majesty's Formula with Acacia Castoria. I was left with a very sour stomach, and those who could hardly know how very careful one must be in what they eat and with medicines they take. Constipation and indigestion generally commenced my attack; headaches and bad breath naturally followed; but today I am able to eat anything I fancy. My secret is I can honestly recommend, like in your advertisement, Little Liver Pills.

War Debt Causes Trouble

Time, the great healer, will remedy many ills, but the financial aftermath of the Great War will not come to check and retard international trade

Acids In Stomach Cause Indigestion

One-tenth of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food mura, causing the disagreeable

Canada and World Disarmament

During this present period of world-wide business depression when, despite, good people, too, are bound to acknowledge that the only way out will be another great war, that such a struggle will be the ultimate outcome of the world's existing difficulties, that statement should be the last to pass the lips of any person. Another war, instead of being a cure, would be the final word of doom.

Many contributing causes there may be to the economic truce of today, but the main cause of all the trouble to be found in the Great War, 1914-1918. This terrible struggle laid the foundations for what has taken place in the world, all statistics of history fully realize that our present experience are but a repetition of those which followed the Great War. Another great war, would have ended the same result, only worse, because modern world conditions only seem to intensify and prolong the same when they do occur.

Therefore, therefore, of even thinking "war" the people of all nations should think and talk of nothing but peace and disarmament, and direct all their energies to the communication of that ideal.

What is the great financial burden borne on the shoulders of the Canadian people today? It is the debt created by the Great War. The public debt of Canada created in the upbuilding of this Dominion from before the date of Confederation down to 1914 only for annual interest payments of only \$12,000,000, or only 8 1/2 per cent of our national expenditures, and the principal \$1,000,000,000. The same debt today, with the same charges on the public debt created since 1914 amount to \$1,000,000,000, or 25 per cent of our annual expenditures, and more than \$100 per head of population in 1914 and over 275 per cent.

But this is not all of the war burden. In addition to this 275 per cent for interest on the war debt, Canada are required to devote another 12 1/2 per cent of expenditures for services arising out of the war, such as pensions, after care of soldiers, etc. That is, out of every \$100 expended by the Government of Canada each year, \$10 1/2 is directly to the war. This is the burden which the heads and creeps the efforts of our national government.

Of every \$100 expended by the United States \$60.00 is spent because of war, past, present and future. The war expenditures of Great Britain are in like proportion, or possibly even somewhat larger. It is a recent speech before the International Chamber of Commerce, made in Washington, that the world's economic situation is a result of the depression is largely due to "the destruction of life and property, the great loss of business, and the moral and political instability which resulted from the Great War." It is the destruction of life and property, the great loss of business, and the moral and political instability which resulted from the Great War.

LOCAL NEWS

Mr. J. B. Anderson had a very
successful operation on his eye on
May 14th, at the Royal Albert Hos-
pital in Edmonton.

Mr. Anderson expects to be back
in town by the first of June.

The Western Institute held a
most enjoyable afternoon bridge on
Thursday, May 14th, after the busi-
ness meeting. The prizes went to
Mrs. G. Mohr, (first) and Mrs. E.
Taylor (second).

The hall-
dances which to thank everybody
very cordially for their kindness in
helping to make the party a success.

A newly painted sign bearing the
new name of the Port Saskatchewan
Yacht Club will be fixed up at the
clubhouse on June 1st.

On the day the words of the "Port
Saskatchewan Community Club" stand
out and one to see some day.

Best Kennedy of Edmonton spent
the week-end with Ray Anderson
nearby.

Miss Audrey Arnot spent the
week-end at the Rialto house.

There are strange tales of three
hundred miles, and other friends of
the side show, but here is one that
will best them all.

On the farm of E. C. O'Connell, it
now, gave birth to six little pigs, of
which had 7 pigs and eight feet.
Four of the first were to be quite
normal, only on a head were a
power loss.

We read not long ago of a farmer
at Lacombe, having six little pigs
born from one sow and all the
porkers were their kind legs.
Each pig, can help this farmer out
early.

Victoria Day Sports
Well Attended

In spite of the mild storm on the
weatherman, Port Saskatchewan's
Victoria Day Sports went over the
top.

Wind, dust and scattered showers
didn't dampen the enthusiasm of the
some two hundred and fifty specta-
tors who were treated to some fine
events.

Each team fought well under the
conditions, but the Port would be
able to fill up the hole around their
battered team. The final hole around
the Port with a well attended 40
and suddenly giving them a close
edge. For the day which is no more
than a "hand-off" business it was
well attended.

We were privileged with having
an added attraction during the
afternoon, the Port Saskatchewan
Road from the city. They were
very bright spot in the days
and at all times were attended by
throng of youthful admirers. In this
respect, their popularity was only
surpassed by the Port's own
refreshment booth, on the grounds,
which did a "hand-off" business it
helped and ice cream.

The early spectators were not kept
in suspense long as the first game
Port Saskatchewan High school vs
Josephsburg began promptly at 1:15
and continued. The day was very
open by the throwing of the first
ball by Mr. Lloyd Ball, President
and manager of the Port.

Mr. Ball's winning throw was
forcing someone to cry in the
air, was trapped nearly by Mr. Giff,
using his protection. It was a solid
effort and left both weary gen-
tlemen breathless for quite a space
of time.

The game then began
and the Josephsburg boys gathered
in quite a number of points. The
score stopped out in a whirling
flick in more 6 runs and put the
game in the bag in the time 15:15.
Coming material was apparent on
the both sides and with a few
years experience they would be an
acquisition to the senior ranks.

Lancers as follows:
Port—Dover, Simmons, Lane,
Gard, Whitford, Gibson, Weston,
Roberts and Kinchay.
Josephsburg—Ruppel, Mann, Cranston,
Harris, F. Thomas and Maly.
Port Saskatchewan vs Gibsons.

The first senior game of the day,
port under way at 1:15. The players
on both sides turned in a perfor-
mance of stirring caliber. The
handicapped by a tremendous run
diamond well. Play was lively con-
sistent with the Port's own
until the last man was retired.

The pitching for this game was
moderate, but the side artists were
afforded content and at least some
play which held the Port's own
in a great degree. The Gibsons
lacked the punch in the pitcher but
on the whole they fielded a pretty
dangerous aggregation and should be
happy from when they get into relief.

The Port players were the bit
vipers, coming through with also
single runs. The Gibsons were
request D. Turner, L. Diamond and
Fisher. The last man showed the
first count of 1-3 favoring the Port
at the conclusion.

Wage War On Insect

It was in 1903 that Mr Bennett was interested in farming near Innisfail, Alberta, met Mr Bennett, a young lawyer from Calgary, at a Conservative picnic. Mr Bennett had come interested later in Mr Bennett's plan for amplifying the
The idea, Mr Bennett explained

This would save "one hour a day" universally in conducting the business of international exchange. The British "pound" would bear the same relation to the "Canadian 'rex'" as the American dollar now bears to the British pound.

† Different figures for the same prices in different countries obtained

One "rex" would equal 100 "ces" in Mr. Jensen's scheme. The "Chin-
naus" could be issued as four ces
the Indian silver rupee at six ces

the English crown at 20 cents)

When all nations are using the same figures for the same price, namely, weight of coin gold, instead of different figures, it would save business millions by making the price immediately understandable in exchange. Prices would be easily understood in all countries. The proposal would not affect the silver

In addition to discussing the question with Hon. R. H. Bennett and Hon. L. C. M. E. Amery, former secretary of state for the Dominions, Jensen has talked about it with leading world bankers, and has found moral support.

Mr Jensen was chartered accountant in Calgary for many years before moving to Vancouver.

**Invention Of McGill Professor
Fought With Great Possibility**

If the recent discovery of Prof. F. Reilly of the Physics Laboratory, McGill University, Montreal, proves as successful as hoped for, neighbor radios, or any other appliance or mechanism, may be shut off by the sound proof boards used in the construction of the home, office, or any other kind of building.

The boards made from waste products have, according to a despatch, proven successful in several tests. Acoustic or sound boards made from sugar have hitherto been imported into Canada, but the new Canadian process will be much cheaper. It is said buildings constructed of Prof. Ross' invention will be so noiseless that a steel rivetter working next door will be unheard.

A Private Income of
\$100 a month for life!

... from age 55!

\$100 Just picture it—At 55, while still well and vigorous, income into a private income (over and above other revenue), guaranteed for the rest of your life, of \$100 a month. You simply make yearly or half-yearly deposits of an agreed amount for a specified period, at the end of which you begin to receive a monthly income for life.

\$100 That's only part of the story—If, meanwhile, through sickness or accident you should become totally disabled, you can pay premiums and receive \$100 a month during such disability. At age 55, the regular income of \$100 a month, unimpeded, comes into effect.

\$100 Look how your family is protected—Should you die at any time after reaching 55, your family receives \$100,000.

Strong News From Italy Last Night's Power Plant To Supply Electrical Energy To Montreal

Here is strange news from the first hydro-electric plant on the River Jordan which is the first of its kind in the world. It is being operated by the city of Montreal and is now supplying current to such places as St. John, St. Lawrence, and Berthelme. The British are now planning to build a generating plant at the surrounding region. Before long the mountain stream of Lake St. Lawrence will be producing 1,000 horsepower.

SUNDAY SCHOOL LESSON JULY 10

CHRISTIANITY SPREAD BY PERSECUTION

Golden Text: "The things which shall come upon the world because they have despised the word of life, shall come upon them." Revelation 16:19.

Read I Peter 3:15-16.

Devotional Reading: I Peter 1:2-5.

Discussions and Comments

The first Christian persecution was the persecution of the Christians in the Roman Empire. The Christians were persecuted because they refused to worship the Roman gods and the emperor. The Christians were persecuted because they refused to worship the Roman gods and the emperor.

home on Tuesday, the 11th, from a
three weeks visit at Lethbridge, Cal-
gary, Regina and other points.

A small fire at the home of Mrs.
C. McLaughlin resulted in an alarm
being sent into the fire hall on Tues-
day evening, but before the brigade
had a chance to answer the call, it
was found that with the help of
friends the blaze was extinguished.

Mrs. Parker of Edmonton is visit-
ing her sister Mrs. McLaughlin here
during this week.

We had heard that Ralph French
and Sam Hunsley are getting along
fine on their way to Seattle.

Mrs. Andy and son Ralph of Saskatoon
left Wednesday, August 7th, for
a fortnight's visit amongst friends in
this district.

The report of the experts says that the foreign office in London, signed a protocol which provides the suspended payments shall be repaid in equal annuities spread over the period from July 2, 1933, to July 2, 1943. This means there will be 10 years' installments between the expiration and the beginning of repayments.

The suspended payments shall be interest at three per cent, and shall be "absolute obligations involving no question of postponement," the protocol declares.

The report of the experts says that the German government would have much better

payments could have been simply postponed until after the 1931 payments due in 1931, with 1932 the 1932 payments -- and so on.

"But," the report says, "a different method was contemplated in the Franco-American agreement of Jan. 6, 1931, and in view of the importance of reaching an agreement without delay these governments which are parties to the Franco-American agreement have agreed to submit

Other principal provisions of the protocol are:

(1) Test unconditional commitment

(8) That payments required service of the German external bank and for service of the international rail zone east zone of 1939 shall

(3) That annuities to replace suspended payments shall be paid monthly installments the 15th of each month beginning July 15, 1923. The payments shall amount each year about \$29,000,000.

What was first thought to be only
a chimney fire, developed into a
blaze that totally destroyed the home
of Ed. Dabbs living a mile south of
Grinshaw on Thursday morning.
The fire started about 11:30 in the
morning and by the middle of the
afternoon it was a mass of black
smoke. With the help of many
volunteers the household effects were
saved.

Good Hope
The boys are plentiful this year and
the work of the men are getting the
year out of it.

Good Hope Farm Fair is well
attended. The competition of the
animals are all on view now and
very pretty. Pans, Angora Rabbits
and the common Mr. D. C. Edwards
Henderson welcome visitors.

Mr. C. McNeil had a fine
visit to Mr. Dave Cranston.
Good Hope farm keeper has been

he is around again.

Miss M. Whitson was taken to the
Edmonton Hospital for an operation.
for appendicitis, but latest report
said she is progressing favorably.

WEATHER
The weather has been cold and
cloudy for the past few days and on
Tuesday afternoon a heavy deluge
of rain swept the district.

The thermometer registered around
the 22 mark several mornings during
the past week, but as far as flower

the office of J. B. Adamson and Son.
The family will move to Edmonton
at the end of the present month and
will take up residence on Ada Road.
Mr. and Mrs. D. Harper will be
a distinct loss to the community in
which they have always taken an ac-
tively interest in all social and sporting
activities, especially the tennis and
cycling clubs.

SIMILARITY

A statement had been made by his
doctor that he had a double identity.
He was much disturbed by the
ghosts and was the minister of
his church with a number of prayers
for the prayers of the congregation.

"I don't know," said the minister
delicately. "I would think that at the
meeting of a floating identity the con-

I am sure why they came."
Replied the widow, "I was but last
night's prayer for those lives."

Born to Mr. and Mrs. J. W. Lator of Port Saskatchewan, at the St. Mary's Hospital on Saturday, Oct. 27, a daughter.

LOCAL NEWS

Many Port people attended the Umbrella on Monday evening, according to reports they are just in good luck.

Mrs. J. W. Lator spent last week at the home of her Aunt and Uncle, Dr. and Mrs. Bannister of Edmonton.

Bob Anderson left on Wednesday morning by motor for Sturgeon, where he will spend a few days.

Rev. Mr. Graham paid a visit to the Port on Wednesday.
His first sermon in the Presbyterian Church here before it was United.

The Port Saskatchewan High School last Wednesday evening, playing the best high school there. The Port team had the edge on the game until the end of the sixth, then the Lancers took a steady and a score of 11-5.

Mr. W. Lator of St. John's, Sask. is visiting here. Son, Lator of Port Saskatchewan.

"Hallelujah" now playing at the Empress Theatre is not really what the title suggests, rather it is the first of a series of plays, of the kind. This company is made up of the best players and a story of the colored race and while a religion, it has an intensely dramatic plot. Its dialogue is earthy and true. Its action picture quality is such as only King Lear can impart.

MAJOR STRANGE VISIT

INTERESTING TALK OVER RADIO

Major H. G. L. Strange director of the research department of the South Omaha Company, spoke over C.J.C.A. on Monday night.

Major Strange spoke on "What and the World Depression", this subject coming at this time was very interesting indeed both to the grade grader and those people as well.

For the first time in four years, since the present outbreak of the war began to pile up, there has been a reduction in army needs to wheat.

Major Strange said, "These facts were known from statistics gathered from unimpeachable sources by the Winnipeg grain trade."

"I could be a fool to prophesy when the clouds will come," Major Strange said, "but you may be sure that the price level is going to be higher. The inflexible law of supply and demand demands this."

SAYS IN RAILWAY EXPANSION MORE

CAUTION NEEDED

Winnipeg, Man., has a reputation of the capital structure of the Canadian West. It is a city that has prospered after the economic position of the country as a whole. Dr. W. W. Brown, professor of economics in the University of Manitoba, told the Winnipeg young men's board of trade in an address which he blamed the people of Manitoba for their retrogression in the building up of the government-owned railroad.

"The C.N.R., a corporation, is debt as the C.N.R. is, might well consider some arrangement with its bondholders which might permit the making of a handout for its retrogression," Dr. Brown said, but he added, "It is not conceivable that the Dominion of Manitoba has a considerable stake in this case and offer a plan of re-

...struction of capital which will in-
crease the value of a country's
of the face value of their invest-
ments.
...capital repatriation of the C.N.R.
...would be a trick in accounting,"
declared Dr. Branson. "It would be
wholly undone unless our posture."
The speaker then turned to the
accompanying Premier R. B. Bennett
in the last imperial conference in an
assembly. "You will see the present
condition of the C.N.R.," he
valued to Canadians "as a warning."
"It indicates in plain terms," he
said, "that the C.N.R. is a source
of more emotion in the future than
has shown in the past. It indicates
that the C.N.R. is a source of
expansion more carefully than we
have sometimes done: the window
of the C.N.R. is a source of
expansion more slowly, even in a
country as rich and as capable of
development as it is Canada."
Dr. Branson described the railway's

the system indicate they proceeded consistently along the lines of what was expected. The public, concerned to see the money go to make the railway complete its equipment and service, to meet for the first time the need to be able to handle the routine operations of the system efficiently, and to draw on the money wherever it seemed necessary for these purposes.

"It, as it has often been alleged, was not the extravagance in the addition of facilities which we may accept my share of the blame which, as a whole, must rest on the people of this country, who, by their impetuous, travelling inclination for special trains, dining cars and four-wheeling reduction of time and service of these to the detriment of Canada made up and they have paid what they demanded."

Favorable Trade

British and German Trade Shows Signs Of Improvement

Washington, September 10.—Forward trade balance in both Great Britain and Germany.

Germany's favorable trade balance, gained through increased exports and declining imports, broke all records during last month.

The United Kingdom has a longer unfavorable trade balance than in August, but there were increases in exports and imports.

Reports to the commerce department gave the following figures:

German imports, September, 646,000 marks, or 10 per cent more than in August, including reparations deliveries in kind of 23,000,000 marks.

United Kingdom imports, September, 46,000,000 pounds, or 10 per cent more than in August, and re-exports at 2,800,000 pounds.

SOME PLAIN FACTS
For Alberta Grain Growers, Consideration

It is of vital importance to every grain grower that a strong government-controlled co-operative elevator system should continue to function in the province and the Alberta Pool elevator organization represents the only facilities in the province that meet these requirements. This elevator system represents an investment of approximately eight million dollars, contributed by Alberta farmers, and the only method by which this substantial equity can be protected and continued operation secured under government control, through the provisions of this province granting that privilege to the system. This applies to grain growers throughout the province, whether Pool members or not.

All country elevators of the Alberta Wheat Pool are operated under public license and as such are in a position to handle any grade of any farmer or may have provided under the Canada Grain Act. The Alberta Wheat Pool further emphasizes the fact that its elevator system is a sound financial basis, has ample working capital, is managed efficiently, and can give exceptional service to the grain growers of the entire province. The agents are carefully selected and strictly instructed to give fair and equitable treatment including proper weights and grades for their grain, to all customers. Alberta Pool members should not, in any instance, seek to place any blame on the Alberta Pool elevator system for the payment of grain in connection with the 1929 and 1930 pools. The sales of grain and the issuing of payments therefore, come under the jurisdiction of the Central Selling Agency. The Pool elevator system had nothing to do with that transaction. Responsibility for the administration and operation of the Alberta Pool elevators had always rested with the provincial government, and on that record the system deserves constant support.

The Alberta Pool elevator system has been in operation for four years. In that time the giving of good service and equitable treatment to patrons at the lowest possible price has been the main purpose kept in mind by the elevator administration. At the same time, during those four years, the income of the Alberta Pool system, after allowing for depreciation and payment of six per cent. on the actual amount received, has provided an average annual sum of more than \$470,000. A portion of these excess earnings has been distributed to growers as a patronage bonus and a portion retained by the organization to provide working capital.

It is desired to again emphasize the importance of growers delivering their grain through Pool elevators on the basis that the Pool is endeavoring to pool its resources, without discrimination between customers and with the definite policy of returning fair treatment to all persons using such facilities, and under this policy your patronage is essential to the continued operation of these co-operative elevator facilities under government control.

LOCAL NEWS

Mr. Frank Walker left on Monday for his home at Red Deer, Alberta, B. C., after having spent the past few weeks with friends around these parts.

The Lament and Vaguelles general hospitals have been placed on the approved list for 1931 by the American College of Physicians and Surgeons.

A very large congregation attended the Thanksgiving service at Sunday here before the Church of St. Joseph.

Mr. J. H. Chavallier of Edmonton, spent the week-end in town.

William Reid of Saskatchewan is spending a day and a half here to inspect business in the city and to see the Bank of Commerce Building.

We are sorry to hear that Mr. W. A. Oliver has been hit by the house for the last few days. His brother Jack is looking after the business in the meantime.

We trust to see Mr. Oliver around again soon.

The next ten days will be busy ones indeed for the lovers of Dinmore, Chisholm, Rogers, and Tracy. The first to leave the list is the Dinmore. Dinmore is the first of the series to leave on Friday evening; on Saturday evening, the Chisholm; on Sunday evening, the Rogers; on Monday evening, the Tracy. Mr. J. H. Chavallier is holding a chicken supper on Wednesday night the United Church Young People are presenting "The Eyes of Love", and on Nov. 8th the Tracy Young Ladies are holding a first supper.

A very successful Halloween party was held in the Memorial hall on Friday, October 23, by the A.A.A. Girls' club.

The hall was well decorated with the hall's novelties for the occasion.

A large crowd attended the dance during the last few hours.

During the evening, many of the couples and solo dancers were given out by the committee in charge.

This proved a very enjoyable feature of the evening.

At midnight a delectable luncheon was served in the buffet room, after which the dance was resumed.

The evening did well, but when it was all over, the girls were very tired.

LLOYD GEORGE HAS RESIGNED AS LIBERAL LEADER

He met Smith has decision in a letter to the Liberal Party. The letter was made public just before a meeting of one section of the Liberal Parliamentary Party at which Sir Herbert was elected to succeed the dynamic Macdonald.

The Lloyd George letter and the election of Sir Herbert reflected the separation of the historic Liberal Party into three factions: two of which are combined against the new

These two are the Samuel Liberals and the group led by Sir John Simon who was elected chairman of the "National Liberals." Mr. Lloyd George and three followers, all that remain loyal to him are expected to take their seats in the opposition.

The little group faithful to the sworn leader includes his son, Major (William) Lloyd George, his daughter Megan and Major Gerowyn Owen. It is assumed they will continue to call themselves "Liberals."

For the moment he seems very much in the shade. Few political commentators believe he will remain there permanently.

The largest number -- 86 cars -- have been sent from Ontario. Central Alberta has contributed 15 railcars mostly of mixed vegetables to a destitute people in the southern part of that province. Manitoba has sent five railcars of mixed vegetables.

Each load is being distributed among 300 families, it is estimated.

London, Eng. Creation of an Empire central bank to act as a clearing house for all central banks of the Empire is the chief recommendation of the report of the joint committee appointed by the Federation of British Industries and the Empire Economic

The report further suggests a strengthening of an Empire currency committee, a move which might be able to establish a "pax-Britannica, built up out of the present anarchy of the world's monetary alliances."

Look It In Instalments

When First Payment Due \$200 Then

How Do You Investments

Among the most popular of the new money-making schemes is the "instalment" plan. It offers the investor the opportunity to invest in a business without having to pay the full amount at once. The plan is simple: you pay a small amount each month, and the balance is paid off over time. This allows you to start a business with a small investment and grow it over time. The plan is particularly attractive to those who have a steady income and want to invest in a business without having to risk a large sum of money at once.

OBITUARY

Once more the "Grim Reaper" has visited our district and on November 22nd called a respected and esteemed citizen and old-timer, the person of Daniel Starks Whitson, who was born at Dawn, Ont. 14 years ago. Since coming to Alberta with his father, the late John Whitson and family, in 1891 deceased had resided continuously in Partridge Hill and Good Hope districts.

On April 4th 1905 Mr. Whitson married Miss Matilda Nagos. He is survived by his wife, three daughters, (Edith) Rev. Mrs. G. W. Armstrong, of Montreal; Marie and Maudie and one son Herman at home.

He was followed by three brothers, Tom and William of Partridge Hill, Stanley of Alameda, Alta., and by four sisters, Mrs. Kemble, Greenwood, Mrs. Shand, Ben Accord, Mrs. Payne, Prince George B.C. and Miss Sadie Whitson of Partridge Hill.

The funeral Wednesday, 23rd was held from the Standard Church, Good Hope and was largely attended. Rev. Mr. Parks of Good Hope assisted by the Rev. H. Jackson of New Brook, Alta., conducted the service and paid tribute in the stirring Christian character of the deceased, during his life-time and thro' a long and trying illness.

Rev. Parks and the Misses Parks sang a trio during the service.

The pall-bearers were all old neighbors and included—Fred Simmons, C. Cripps, Wm. Bennett, W. Magnus, Bob, Johnston and C. H. Pfitzoff. Floral tributes were received from The Family; Mr. and Mrs. C. Cripps; Bill, Sadie, Sam and Mabel; Yum, May and Family; Mr. and Mrs. H. Magnus and Family; Mr. and Mrs. C. Magnus and Elsie.

Interment took place at Good Hope Cemetery. Mr. W. J. Foster, Fort Saskatchewan, had charge of arrangements.
